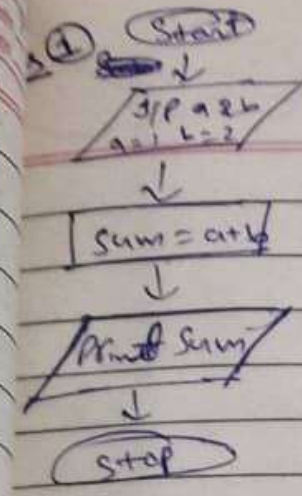
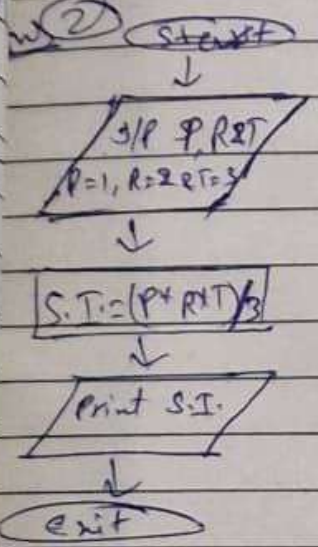
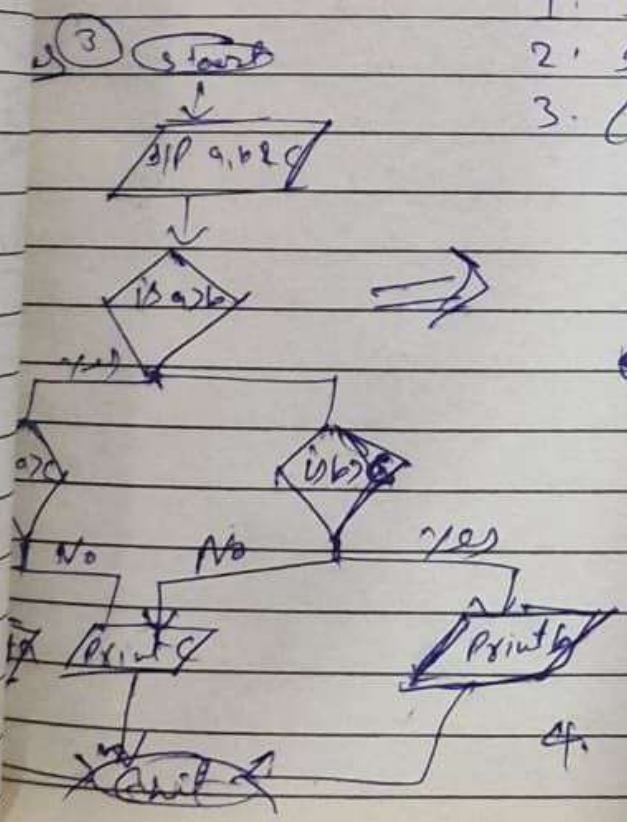
8/April/2020



1. Start
2. Input two no. a & b
3. Calculate sum = a+b
4. Print Sum
5. Exit



1. Start
2. I/P three no. P, R & T
3. Calculate S.I. = (P*R*T)/3
4. Print S.I
5. Exit.



1. Start
2. Input a, b & c
3. Compare a>b & c each other
   if a>b do
      if a>c do
         Print a is greater
      else
         Print c is greater
   else if b>c do
      Print b is greater
   else
      Print c is greater
4. Exit.

Prime → वास्तव संख्या जो 1, खुद से और
उसके अलावा और divide होती है
mean reminder 0 आये।

अभाज्य संख्या जो खुद
से और 1 से divide हो ही
Prime no.

Find max. of 3 Numbers.

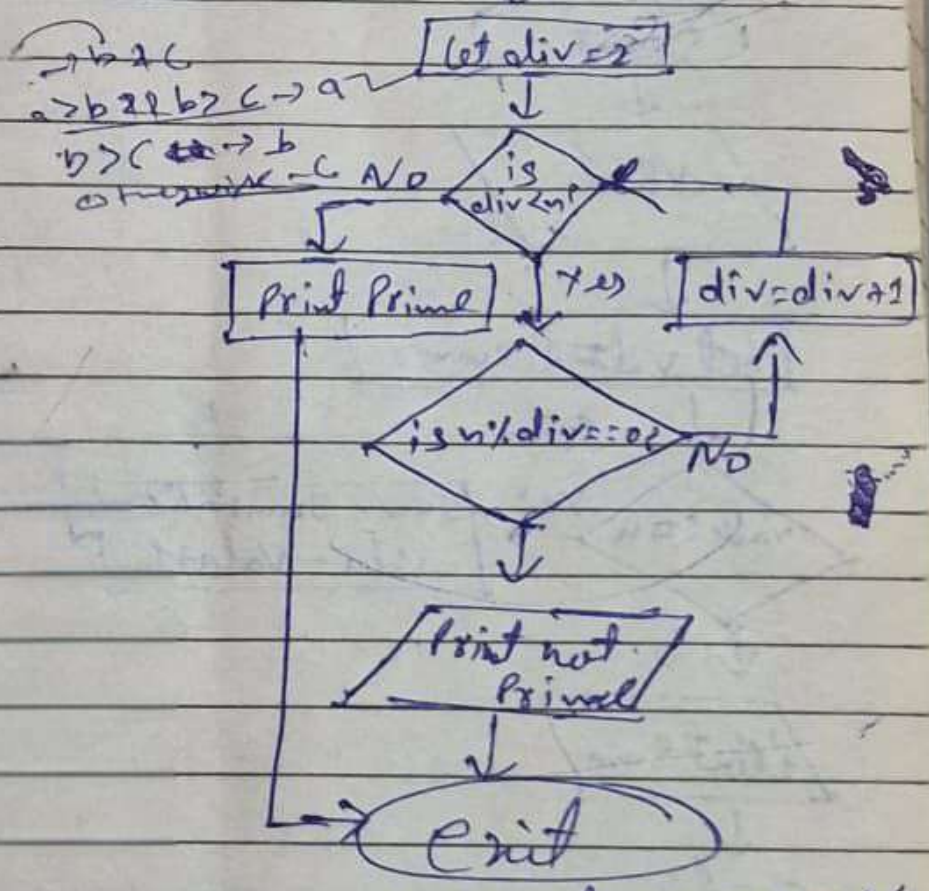
I/P
3 Numbers a, b & c

O/P

Find if Number is Prime

I/P
Number, n

O/P
Prime or not Prime



1. Start 2. I/P N
2. Let div=2
4. while div<n do
   if N%div==0 do
      Print "NOT Prime"
      Exit
   else
      div=div+1
5. Print Prime
6. Exit

whole numbers → जो 0 शुरू होकर ∞ तक जाते हैं

प्राकृत संख्या जो 1 से शुरू होकर अनंत तक जाती है

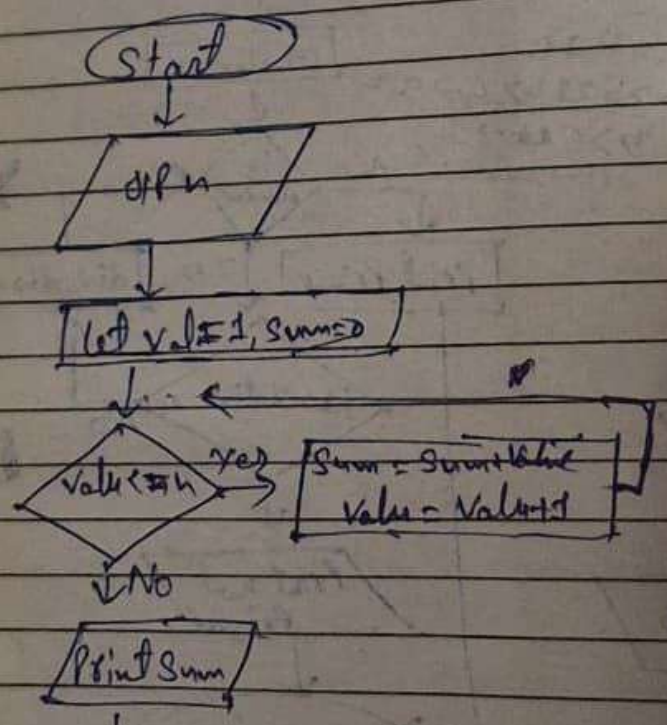
Sum of first n natural numbers

0, 1, 2, ∞

1

I/P
numbers, n

O/P
Sum of first n natural numbers



1. Start
2. I/P n
3. Let Val=1 & Sum=0
4. while Value<=n do
   Sum = Sum+Val
   Val= Value+1
5. Print Sum
6. Exit
